<https://github.com/Conzorkingkong> - <https://gitlab.com/users/Conzorkingkong/projects>

Self-taught client-side web developer with a passion for JavaScript.

Objective

To grow as a programmer with people who enjoy the craft and are excited to find creative solutions to interesting problems.

Work

Kroger Technology - Web Developer *April 2017 - Present*

Kroger Technology is Kroger's technical division.

My job was to build custom **React/Redux** Components for kroger's web app and improve Microsites for child companies of Kroger.

I launched department pages that allowed people to shop online for their groceries and improved the functionality of other pages.

Cloudflare Apps (Formerly Eager.io) - Web Developer Intern *March 2016 - June 2016*

Cloudflare Apps is a platform that lets developers create a single **HTML/CSS/JS library** and publish to **WordPress, Drupal, and Joomla**.

My job was to build libraries, test them across browsers, incorporate feedback and deliver high-quality tools.

Many apps I built now run on thousands of websites and were built using **Babel** and **Node.js**.

Projects

Alarm Clock: A **NERD Stack** application that allows people to sign up and save alarm times. Has integrated **CI/CD** on Gitlab using **Docker**
